Elephants are the largest land-living mammal - their trunk alone can grow to more than **6 FEET LONG!**

Elephants **DON'T** actually like peanuts!

The closest living relative of the elephant is the **ROCK HYRAX**. Believe it or not, it's a small furry mammal native to sub-Saharan Africa and the Arabian peninsula coast.

Adult elephants can drink up to **53 GALLONS** of water a day.

Ever seen elephants **THROW SAND ON THEMSELVES?**

They do it to prevent sunburns and to keep bugs away!
